BSE Ltd	15.00%	3,13,50,000
LIC India	4.40%	91,88,462

Key Takeaway - CDSL is a dominant, debt-free depository with a strong moat and cash conversion. But FY26 margins compressed and profit fell ~13.50%. Returns remain strong (ROE 24.5%), but the premium multiple (current P/E 56x) depends on margins recovering. Key things to watch: cost growth, demat account additions and market activity.
